Born in Cairo, Egypt into a prominent Moslem family of lawyers and following in the footsteps of his father and uncles, he too chose to become a lawyer. Through the witness of his best friend, Tamir, he experienced the love of

Christ and made the decision to give his life and service to the LORD.

He began the mission to bring the Christian community all of the same legal rights as the Moslem community in Egypt. He began a ministry which in just two years grew to 24,000 Christians. The Egyptian Government did not tolerate this and Majed wound up in the torture section of the Abu Zaabel prison in Cairo.

During this time in prison, Majed underwent severe torture for seven days in the underground prison, everything from shaving his head and placing his head and hot and cold water, hanging upside down, being burned with cigarettes, the miracle of the attack dogs silenced, to being crucified during the last two and a half days with a mixture of salt and lemon to anoint his wounds. All of this is because of his new faith in our LORD.

He eventually escaped and on a whirlwind journey, fleeing to Israel, where he was jailed for over a year because they weren't sure what to do in this circumstance. Legally he could not stay in Israel, but, if they sent him back to Egypt, he would be executed.

Through the intervention of Amnesty International and the United Nations, Majed was released from prison and became a free man in Jerusalem, Israel.

Since, he has relocated to Toronto, Ontario, where he has actively started his own ministry and is now the President of *One Free World International*.

*One Free World International* is a human rights organization designed to bring Glory and Honor to our LORD by defending the persecuted Christians world wide, to serve the community of Believers and make a difference in their lives. By the Glory of God, *One Free World International* currently has three established branches, Toronto, Washington DC, and Florida. *One Free World International* held its first conference November 4<sup>th</sup>-6<sup>th</sup>, 2004 at the Toronto Airport Christian Fellowship and co-hosted by 100 Huntley Street.

*One Free World International* is also developing relationships with Christians in various Moslem Countries and Israel.

It has also been successful in building bridges with members in the Canadian Parliament and the American Congress to help educate the community about the impact of the Islamic world and persecution of fellow Brothers and Sisters.

Along with this he also has a Christian Arabic Radio Program, "*River of Love*" reaching the Middle East and North Africa. In the past four months 731 Moslems have committed their lives to the LORD. He has started a second Arabic radio program called "*Encourage Iraq*" to help encourage the Iraqi people in this time of unrest and to introduce them to the Prince of Peace, Jesus Christ.

Majed has visited and spoken in over 200 churches and congregations in the past year both in Canada and the United States. He has also been interviewed by several magazines, television, and radio, both Christian and secular.

Majed's passion is to help the persecuted Christians around the world and be their voice when their voices' are not heard.

The story of Majed is not only a story of violence and persecution but rather a story of Glory and Victory. It's a story about fighting the darkness by the light of Christ.
